

SATHISHKUMAR K

Full Stack Developer | Chennai, TN | 6380891338.

me.sathish.git@gmail.com | sathishkumar.dev

Professional Summary

Experienced Full Stack Developer (3.8 years) specializing in Angular and Spring Boot for developing scalable, maintainable, and secure applications. Strong in mono frontend architecture, REST APIs, and modern frontend design. Focused on continuous learning, agile development, and delivering impactful digital solutions.

Technical Skills

- Frontend: **Angular** (Core, Modules, Services), **TypeScript**, JavaScript, HTML5, CSS3, **NgRx**, Redux, RxJs, **SSR**, SMART and UI library Architecture, **Mono** Frontend and **Micro** Frontend Architecture.
- Backend: **Java Spring Boot**, **NodeJS**, ExpressJS, JWT, Spring Security, RESTful APIs, Microservices Architecture.
- Tools & DevOps: **Git**, Gitlab, **CI/CD pipelines**, Figma, Postman, **Nx console**, Chrome DevTools, Storybook, **GitHub Actions**, Firebase Hosting, Vercel.
- Database: MongoDB, MySQL and PostgreSQL.
- Cloud: **AWS** (S3, EC2, Cloud watch, Cloud front and more.)
- Workflow: **Agile/Scrum** methodologies and **clean code** with coding standards.
- Testing: Jest (UI Unit Testing).
- Stack: **MEAN** and **Java + Spring boot**.

Work Experience

Full Stack Developer | Capgemini | Dec 2024 - Present (Associate Consultant)

- **Client:** Tata Communications.
- **Domain:** Communications and Networking Product.
- Developed and deployed **end-to-end web solutions** using **Angular** and **Spring Boot**, improving feature delivery speed by **30%**.
- Managed database schema and migration to support new application features.
- Integrated **CI/CD pipelines (Jenkins, Git)** and collaborated in **Agile sprints** for continuous delivery.
- Contributed to **microservices architecture**, increasing system scalability and fault tolerance by **40%**.

Frontend Developer | TCS | May 2022 - Dec 2024 (System Engineer)

- **Client:** Delta Airlines.
- **Domain:** Airline and Travel.
- Developed a feature-rich airline booking platform using **Angular**, increasing conversion rates by 20% and improving user experience.
- Implemented complex forms for reimbursement and cancellations using **Angular** and **NgRx** to provide actionable insights.
- Integrated multiple micro-frontends into a cohesive enterprise application, enhancing workflow efficiency.
- Translated **Figma** designs into pixel-perfect, responsive UI components.
- Ensured code quality and stability through unit testing with **Jest**.

Education

Bachelor of Engineering, Computer Science and Engineering
Thiruvalluvar College of Engineering and Technology | 2017 - 2021

- CGPA: 76.5%

Certifications & Courses

- JavaScript Fundamentals.
- Git & GitHub Mastery.
- Business Communication: Foundation.
- Digital: HYBRID App Development Foundation.

Projects

- **Smart Task Tracker API** | *Angular, NodeJS, ExpressJS, JWT, and Vercel Deployment* ([sathish-repos/tasklybe](https://github.com/sathish-repos/tasklybe)).
- **Mono frontend Architecture** | *Angular NodeJS and ExpressJS* ([sathish-repos/mono-repo-nx](https://github.com/sathish-repos/mono-repo-nx)).
- More on my GitHub repo (github.com/sathish-repos).
